

# SAFETY MAP, NDYS 2010 BURSA TURKIYE

School: **Millennium** Town: **Rustavi** Country: **Georgia** web: <http://millennium-en.blogspot.com/>

## School Introduction:

The private school of "Millennium" is actively functioning since 2000. It was founded by the LTD "N & N 2000".

## The presence is full with new events

### Future-is well-planned.

The School is orientated on the classes with small groups. The goal of the school is to assess pupil's performances on a daily bases and meet the main program set according to plan of school year.

At our school the subjects such as math and English are taken with the intense studies. The English language course starts from first year, while the Russian is taught from the second year. There is every possible condition at disposal of the students in order to ease their formation as true followers of national or internationally accepted values.

## Safety Map Introduction – 1

Georgia is situated in Caucasus, where the most natural disaster are earthquakes, but offener there are rainfalls, floods and landslides, mighty in Spring. A lot of people have been homeless and ecorefuggess for natural disasters.

Our disaster map is based on eartquake, because our city plases in the halfdesert, it rains rarely and the flood and landslide there are not yet. The red r is the most dangerous place. There are blocks of flats. White r is the safety area, where they should get for avoid of danger. They are fields and open spaces. With wide streets it is easy to go out in the emergency.

## Team Introduction(Team 1)

In our team consist of students the 6th grade. They are: Mari Tvaliashvili, Mari Kolbaia, Iuko Chubinidze, Dato Kalmakhelidze and the lider of group Etery Paitchadze.

## Share The Process of NDYS 2010

1. We learned the old experience of NDYS;
2. We got to know about GDSM programe, resairched environment near our school and made safety map;
3. We searched informations about pollution of environment and disaster in Geogria;
4. We prepared disaster reduction and climate change poster and presentation.

## SAFETY MAP, NDYS 2010 BURSA TURKIYE

### **Present Topic Outline: Safe the place where we live in**

Aims of the project in the short run: In the earth day students are cleaning school's yard and school's surrounding area.

Aims of the project in the long run: the students learn the sources of climate change and the consequences, understand local and global impact of climate change and get to know how they can act to reduce the impact of climate change. They make a poster about climate change and nature place at schools area.

Social aim of the project: to inform about the issues of ecology and give knowledge for protection environment from pollution.
