

SAFETY MAP, NDYS 2010 BURSA TURKIYE

school: **Bilkent High School** Town: **Ankara** Country: **Turkey** web: www.obi.bilkent.edu.tr

School Introduction:

I.D.V Bilkent Highschool is a four - year program high school in the category of Anatolian High schools. According to the weekly course schedules, which are being applied gradually through 2005 – 2006, 9th and 10th grades have 40 and 11th grades have 38 hour classes per week. Our school was founded in 1993 as a part of γ hsan Do •amac • Foundation, established by Prof. Dr. γ hsan Do •amac •. In line with Emerson's statement "the ancestor of every action is a thought", Dr. Do •amac •, who believes that the ultimate goal of education is to promote critical thinking, established Bilkent schools to achieve universal educational standards and encourage creative individual thought.

Our mission as the Bilkent Schools, in keeping with Atatürk's principles, is to raise students who;
Benefit their society,
Integrate their identity with their cultural heritage,
Learn throughout life, through their own experiences,
Know the importance of learning other languages,
Embrace cultural and ethical values,
Nurture a principled, self-confident and successful self-view, Think globally.

Team Introduction(Team 1)

Our team has 4 people in it, and we all know each other since preschool. We are all going to the same school and we share the same atmosphere every day. We are all aged sixteen and live in Ankara. We, Nehir Tuna, Cansu Ozturk, Elifsu Yazici and Ekin Il, are looking forward to meet with other students attending to NDYS. We hope that this will be an effectual work.

Present Topic Outline

Aims of the project in the short run: Things that caused by safety problems in disasters can damage all the place, control the places first.

Aims of the project in the long run: Think all the disasters globally and find all the possible solutions that will decrease damage for all situations.

Social aim of the project: Helping for humanity and our future. Importance of behaving good to earth and environment. As a member of a team, importance about what you can deny everything easily.

Safety Map Introduction – 1

In Turkey the main disaster is earthquake. In certain cities there are earthquake lines. But in Ankara there is no earthquake line. Our aim is saving ourselves from earthquake with minimum injury. That's why we made safety map step by step.

Step 1: We decided about the type of disaster: Earthquake

Step 2: We looked at Ankara's map.

Step 3: We colored roads, rivers and parks.

Step 4: We searched important places. For example: Hospitals, nursing home, police station and fire department.

Step 5: We marked them on safety map.

Share The Process of NDYS 2010

Our team consists of 5 students.

1. Brain storming about earthquake situations.
2. Searching about earthquake types and where they appear.
3. Finding important places and dangerous situations on maps.
4. Informing our friends about the dangers of earthquake.
5. Notifying our friends about what they should do during an earthquake.
6. Wising our friends up about the things that they should take precautions and how they should do it.
