

# NDYS in Action, Newsletter

**Natural Disaster Youth Summit Monthly News**

NDYS Youth

Hello Members of iEARN!

I would like to inform you that 4th edition of NDYS (Natural Disaster Youth Summit) NEWS LETTER is now completed.

Please check here! → <http://ndys.jean.jp/news/index.html>

You can find former editions of NEWS LETTER there too!

Now, it is the age of Information. Through Internet, we can exchange information each other from any place of the world. This News Letter is started, to answer your questions "What is NDYS doing?", "What Natural Hazards are happening in the world?", "What kind of efforts are made to prevent disaster?". Most important thing for us is to "share" information with everybody. Reasonable solutions are always discovered by getting much information.

Normally, there are two main contents in the news letter;

1. Reports of "What are NDYS doing" and "Events which have very close theme with NDYS".—These reports are mainly from Kobe, Japan, which is the city NDYS was started.
2. Reports of "What Natural Hazards are happening in the world" and "What kinds of efforts are made to prevent disaster"— these are the reports from all around the world.

For News letter, many friends of iEARN helped us to found, and correct many kinds of information about Natural Hazards in all over the world.

We would like to say thank you for those who helped us to make news letter.

News letter is very important step of NDYS, because now, we can share information with everyone in the world by seeing news letter.

We want you to check it, and to be interested in the topics. And of course, if you have new information about Disaster Reduction that you want to share with everyone, please send it to us. We are always waiting for it!

March 1, 2008
