Safety Map Introduction - 1

History of major earthquakes in Iran

Iran is a rich earthquake country. Since 1961earthquakes in different times and in different regions of the country have occurred which Friday morning earthquake in Bam city is last of them.

In 2000, earthquake power 5.2 on the Richter scale occurred in two provinces of Zanjan and Qazvin contain Tarom regions, Khodabandeh, Abhar, and Soltanieh Khorrmdarreh and Buin Zahra were killed more than 500 peoples .

The biggest earthquake in recent years occurred in about 1990 in Gilan and Zanjan power of 7.3 in the Richter scale. The earthquake killed more than 40 thousand which is bloodiest earthquakes in Iran. This earthquake within a few seconds in 1100 square kilometers has destroyed 27 cities and 1871 villages.

Team Introduction(Team 1) Narjes Educational Complex team from Iran consists of: Saba Imanzadeh Sarvenaz Keyhan Niloofar Arabzadeh We all live in Tehran and spent almost all our educational years together. We try to do our best and on this way we receive lots of help from our school and teachers.	**Share The Process of NDYS 2010**
